Benefits of Participating in this Online Conference
• Conveniently interact with colleagues and engage with expert presenters without spending time or resources on travel
• Participate in individual presentations or the entire conference through affordable, tiered registration fees
• Receive a complimentary headset with microphone so that you can listen and interact right through your computer – no need to juggle your phone handset or pay long-distance charges
• Certified Health Education Specialist (CHES) credits available

Conference Focus & Objectives
Focus:
To advance strategies for collaborative, multisectoral best practices for addressing state and local health priorities in Illinois.

Objectives:
• Increase understanding of evidence-based strategies to tackle health priorities.
• Strengthen knowledge of meaningful evaluation measures and processes.
• Raise awareness of cross-cutting health priorities and the state and local systems to address them.
• Provide access to resources (experts, tools, publications, etc.) for addressing health priorities.
• Reinforce collaborative approaches for aligning the work of traditional and non-traditional community partners.

Who Should Participate?
Leadership, Staff and Advocates from the following:
• State and Local Public Health Departments
• Health and Social Services Agencies
• Community-based Organizations
• Medical/Dental/Mental Health Clinics
• Academic Research Centers
• State and Local Businesses
• School-based Health Centers
• Faith-based Health Ministries
